

## CELL PHONE POLICY

Every consideration and courtesy should be extended to the members and guests at the Redding Country Club to provide an atmosphere free from the interruptions of cellular technology. In this spirit, RCC requires that portable communication devices (cell phones, tablets, and readers) must be on SILENT/VIBRATE mode at all times throughout the Club's facilities. Communication devices can ONLY be used in the following locations:

- For quietly talking on the phone away from dining and bar areas. Acceptable areas are the front lobby, the Main Dining Room when not in use, and the front entrance/patio away from diners.
- For quietly talking on the phone in the men's and women's locker rooms, the paddle hut, and the pool facility.
- For reading and writing of text messages/emails in any area, including the Grill Room and Veranda bar/dining areas. o No talking on cell phones in the bar/dining areas listed in item C or in the Pro Shop except for emergencies.
- For children's entertainment, devices are allowed with the use of earphones/headphones to keep sound to a minimum level. If the volume (even using headphones) disturbs other diners, parents may be asked to reduce the volume of the entertainment device.

Thank you for helping us to create a relaxing and enjoyable experience for all!
